

LONDON ELECTRIFIED BY THE GOOD NEWS

Kimberley Has Been Relieved by General French.

BOER ARMY RETIRES WITHOUT OFFERING BATTLE.

It Is Supposed that Gen. Cronje Has Retired Into the Orange Free State to Protect Bloemfontein—English Rejoicing Is Widespread and Unrestrained—Heroes Made of Generals Roberts, French and Kitchener—News Creates Great Excitement and All Securities Took a Jump Upward On the Stock Exchange—Roseberry Makes a Savage Criticism On the Government.

London, Feb. 16.—[Special Cablegram]—The report that Gen. French has reached Kimberley is fully confirmed. The Boer forces still hold the city under siege, however. The situation there is not greatly improved. Absence of word from Gen. Roberts causes alarm.

London, Feb. 16.—[Special Cablegram]—London was electrified today by the posting of the following notice at the war office:

"From Roberts to secretary of war: I received the following at 4:30 o'clock this morning from Jacobabad dated 2 a. m., Feb. 16: 'General French with horse artillery, cavalry and mounted infantry reached Kimberley this evening (Thursday).'"

From the fact that there is no mention of any battle and that Gen. French himself writes from Jacobabad, which had previously been the Boer base of supplies for Magerfontein, it is supposed the Boers retired into the Orange Free State without offering battle.

Comes Like a Ray of Sunshine

News of the relief of Kimberley comes like a ray of sunshine out of a dark cloud. The public rejoicings are widespread and unrestrained. Gen. Roberts, whose first move has been such a brilliant success, being praised to the skies. The relief of the besieged city is due, in the public mind, to his brilliant strategy. Generals Kitchener and French are not forgotten, as it is believed the former organized the forces and French executed Gen. Roberts' plan with boldness and dash.

All Securities Take a Jump

There was great excitement on the stock exchange today as a result of the relief of Kimberley. All securities took a jump upward.

Report That Boers Are Retiring

London, Feb. 16.—[Special Cablegram]—The only official news at midnight was a series of dispatches from Baden-Powell, disclosing the steadiness, courage and ingenuity with which the defense of Mafeking was maintained to the end of January.

Later reports through Kimberly indicate that the siege has virtually been raised by the retirement of a large portion of the Boer force with guns.

Cut in Cronje's Communication

London, Feb. 16.—[Special Cablegram]—As the wires are closed to correspondents with Lord Roberts, and as nothing further from him has been communicated to the public, the military adepts spend their time studying maps, topography and figuring out the possibilities of Lord Roberts' communication, and what there is left for the Boers to do.

Gen. Cronje's communication with Bloemfontein has already been cut. The best news England could hear would be that he elects to give battle among the low hills and ridges west of Kimberley. Should he determine not to do this, he must raise the siege of Kimberley and retreat to a point where he would prefer to fight.

Would Be a Long Detour.

This retirement could be a long detour around the head of the British, advance to Bloemfontein or as seems to military students more practicable, he could withdraw to the north, using the railroad for his guns and heavy baggage, moving to Fourteen Streams station, and thus into Transvaal territory.

The Boers have no preparation to defend Bloemfontein and there is no particular reason why Gen. Cronje should

recorded in the Springfield neighborhood state that the British lancers killed five and wounded nine. An English correspondent at Chieveley, in a dispatch dated Feb. 13, says: "We are still hopeful of relieving Ladysmith."

Nothing has been received from the latter place direct. A Boer report, dated Feb. 13, says that everything is quiet there.

An unprecise Boer report states a large British army moved toward Colenso last Monday and camped near Boschkop. This seems to refer to Gen. Buller's withdrawal from Springfield.

A dispatch from Pretoria, dated Feb. 12, reports that the burghers have taken all the British positions round Colenso, and the Chronicle's correspondent at Cape Town, dating his dispatch Feb. 14, says there are rumors that the British have evacuated Rensburg and retired to Arundel. This, if correct, supports the belief here that Gen. Clements, Gen. French's successor, was instructed to withdraw when pressed by the enemy, so as to risk no loss of his reduced force, Gen. Roberts relying on his own advance to compel the Boers to return to protect their own territory.

Cecil Rhodes Dangerously Ill.

Paris, Feb. 16.—It is stated on the best possible authority that Cecil Rhodes is dangerously ill at Kimberley, and that is why no attempt has been made to escape by means of a balloon, which he has in his possession. His death would have important political results in South Africa. The necessity of relieving him played no small part in Roberts' decision to press on to Kimberley in all possible haste.

More Canadians for South Africa.

Toronto, Ont., Feb. 16.—The second contingent of Canadian troops for the Transvaal war, most of them mounted, left here Thursday evening to take ship at Halifax for South Africa. They will be joined by others at Halifax, making the total force 1,000.

British Losses at Colenso

Pretoria, Feb. 12.—[Special Cablegram]—The British lost two Maxims and suffered two hundred casualties on their right wing alone in the operations near Colenso today.

Boers Occupy Rensburg

Arundel, Feb. 16.—[Special Cablegram]—The Boers have occupied Rensburg. A large party of the enemy can be seen to the westward, evidently raiding.

Heavy Fighting Going On.

Lorenzo Marques, Feb. 16.—[Special Cablegram]—The Standard and Diggr's News of Pretoria, says that heavy fighting has been going on at Ramah, Free State. The British finally retired.

London, Feb. 16.—[Special Cablegram]

The above dispatch may refer to the engagement between the Boers and Col. Hannay, which was reported by Roberts as having occurred on the eleventh, while Hannay advanced on Ramah. According to Roberts, Hannay's object, in advance, was accomplished.

IS A MATTER OF LIFE OR DEATH

Lord Roseberry's Attack on the Government in the House of Commons.

London, Feb. 16, 3 a. m.—Lord Roseberry in the house of lords last night made a second attack on Lord Salisbury. With vigor and vehemence of language he made a great indictment of the government. There was no mincing of words, no pretense at reserve when Lord Roseberry spoke of the doings of the hour. "In an emergency," he said, "the government has 50,000 more troops to send to Africa. If these are not sufficient, what then?"

"What then?" he repeated in accents that visibly thrilled the house. "This is a matter of life and death. Nothing can hide the fact that behind Lord Roberts' force with the exception of the 8th division, we have no more trained soldiers. If you lose South Africa you lose the principal column in your empire. You will be shut up in these islands, one of which does not love you."

The speech made a great sensation at the clubs and in political circles generally. Advocates of a reorganization of the ministry, with Lord Roseberry and a few other imperialistic liberals in it, are increasing in numbers every day.

BRITISH ARE AT KIMBERLEY

Gen. French Succeeds in Reaching the Besieged City

Chicago, Feb. 16.—A special cable dispatch to the Inter Ocean from its correspondent at Jacobabad, South Africa, dated Feb. 16, 2 a. m., says: "Gen. French, with his horse artillery, cavalry and mounted infantry, reached Kimberley late Thursday evening."

London, Feb. 16.—The absence of news from Gen. Lord Roberts is interpreted here as an indication that important operations are in progress. There is practically no news of consequence from the Natal side. Boer reports of the skirmishing previously

MONEY BASIS IS FIRMLY FIXED

Senate Sets an Epoch In the National Financial History.

GOLD STANDARD SURE

Measure Will Go Into Conference, But Quick Agreement Is Likely.

Raids On the Treasury Will Be Made Impossible When the Legislation Is Finally Enacted—Comparison by States On the Basis of the Vote—President McKinley Will Promptly Sign the Act When It Passes.

Washington, Feb. 16.—[Special Telegram]—The passage by the senate of the gold standard bill was reported to the house today. The senate amendments were non-concurred in and a conference committee was appointed.

Washington, Feb. 16.—The passage of the gold standard bill in the United States senate last evening by a vote of 46 to 29, was an event of prime importance. The result was reached without excitement or incident, and the decisive roll call was announced without applause. But the immense significance of the event was nevertheless felt by every senator present and by the large number of spectators in the galleries. Still waters run deep, and some of the greatest achievements of progress in legislation are effected in the most untheatrical ways.

Standing of the States

The forty-five states composing the great American Union are now represented by eighty-six senators, Pennsylvania, Delaware, California and Utah having but one senator each. Classing Pennsylvania and California as for the gold standard, as they will be by the votes of two senators as soon as admitted, and Delaware and Utah are against it, as they will be, we find that twenty-two states stand in the United States for the gold standard, thirteen against it, and that the remaining ten states are divided, casting one vote each way. In the last named category is placed South Dakota, neither of whose senators voted today but Pettigrew was paired against the bill and Kyle is classed as for it.

The states which voted solidly for the gold standard contain at this time, according to the latest estimates, 49,701,000 population, or 63.7 per cent. of the whole population of the United States. The states which voted solidly against the gold standard contain 20,385,000 population, or 26 per cent. of the whole population of the United States.

The states which cast one vote for and one against the gold standard contain 8,090,000 population, or 10.3 per cent. of the whole population of the United States.

To summarize:

	Popu-lation.	Percent-ages.
For the gold standard.....	49,701,000	63.7
Against the gold standard.....	20,385,000	26.0
One vote each way.....	8,090,000	10.3

The bill which passed the senate passed the house of representatives last December. There are important differences between the two measures, notably the plan to refund the national debt, which is a senate provision, but which the house is expected to agree to. So far as purpose and general effect go the two bills are identical, and little trouble is anticipated in reaching a harmonious basis in conference.

That President McKinley will promptly sign the act finally agreed upon is of course well understood.

SENATE PASSES THE GOLD BILL

Administrations Financial Measure Is Adopted 46 to 29

Washington, Feb. 16.—The gold standard bill passed the senate Thursday afternoon by a vote of 46 to 29, a larger majority than any one anticipated, and it now goes to the conference committee, where the differences between the acts of the house and senate will be reconciled. Senators Allison and Aldrich, who managed the bill in the senate, will be the conferees for that body, and Representative Overstreet of Indiana and probably Representative Dalzell of Pennsylvania will be the republican conferees for the house.

It is not anticipated that there will be any great difficulty in reconciling all differences. The house conferees will object to the bimetallic amendment in the senate, but may be prevailed upon to accept it in the face of a national campaign. Party council will be taken as to the wisdom of retaining the amendment, which was added to the bill in the senate to make it more acceptable to the senators from the western silver states.

The refunding plan of the senate bill will prevail. It is believed by experts that the private holders of 4 and 5 per cent bonds will take advantage of the proposition. There is uncertainty as to the refunding of the 3 per cent bonds because of the difference in the

GIVES LIBRARY TO MARINETTE

Isaac Stephenson, a Wealthy Wisconsin Lumberman and Politician

Marinette, Wis., Feb. 16.—Former Congressman Isaac Stephenson, the wealthy lumberman, today made public his intention to give to the city of Marinette a public library building, to cost \$50,000 or more. The plans for the building are being drawn, and it probably will be completed within a year. The site has been purchased. The library will be located on the public square in the central portion of the business district.

Mr. Stephenson has resided in Marinette for nearly fifty years. It is here he has amassed his fortune estimated at \$5,000,000.

Mr. Stephenson intends to erect one of the finest library buildings in the state.

STANDS IN STATU QUO TILL NEXT MONDAY

Injunction Suit Against Taylor is Postponed—Legislature May Agree to Sit at Frankfort.

Georgetown, Ky., Feb. 16.—[Special Telegram]—Attorneys for Beckham and Taylor came here today to appear in the injunction against Taylor, but the matter was allowed to stand in statu quo until next Monday in order that the democratic counsel may confer on the proposition made by the republicans to have Taylor's and Beckham's suits consolidated for hearing in joint agreed case.

May Agree in Kentucky.

Frankfort, Ky., Feb. 16.—The prospects for the legislature getting together and holding regular sessions at the State capitol are conceded to be brighter today than since Gov. Taylor adjourned that body to meet at London, followed by the removal of the Democratic branch to Louisville.

Speaker Trimble told leading Democrats who were in Louisville today he thought both branches would meet together here Monday. Efforts are being made to reach an agreement as to who shall preside in the senate in order to avoid a clash between Lieut. Governor Marshall and Senator Carter, president pro tem of the senate.

If this is settled the chief barrier to the Democratic and Republican branches meeting together will have been removed. It is believed this will be harmonized upon Monday.

MAY APPEAL FROM JUDGE TAFT

Kentucky Contest Petition May Go to a Higher Court

Cincinnati, Ohio, Feb. 16.—The application of the republican state officials for an injunction against the democratic election commission has been put out of court by Judge Taft but the attorneys for the petitioner announce that they will appeal from Judge Taft's decision. This will bring the case before the United States Circuit Court of Appeals for this circuit. The papers for that purpose allege errors in several respects in the decision. Notice of the appeal was sent to the counsel for the contesting democratic claimants and to the Kentucky election commission. By taking the appeal the republicans are left in undisturbed possession of the offices and their salaries until the Court of Appeals has passed on the decision of Judge Taft.

Frankfort, Ky., Feb. 16.—Deputy Sheriff Suter has served the notice of Mr. Beckham's suit for an injunction on Gov. Taylor. He had no trouble in seeing the governor, who promptly accepted service.

TO CRUSH THE CLERGY

Notifies Pope of Purpose to Deal Severely With Those Who Oppose the Government.

Rome, Feb. 16.—The latest rumor in Vatican circles regarding the tension between the French government and the administration of the holy see growing out of the condemnation of the Assumptionist Fathers has it that M. Waldeck-Rousseau, the French premier, has addressed to the pope what, in essence, is an ultimatum.

It is declared that M. Waldeck-Rousseau has informed his holiness of his intention to crush absolutely the French clergy's opposition to the established government. In this act of discipline he hopes the Vatican will not see fit to interfere, since the contrary course will endanger the concordat and the continuation of the annual contribution of 50,000,000 francs (\$10,000,000) voted by the chamber to the French church.

JACKSON AFTER GAMBLERS

District Attorney Jackson Has Been Busy At Edgerton the Past Few Days.

District Attorney Jackson was in Edgerton Monday looking into a complaint lodged with him that there was gambling going on contrary to the peace and dignity of the state. Testimony was taken from a number of witnesses suspected of knowing something about violators of the law. Mr. Jackson evidently unearthed worth while for since his departure several parties have gone into court and pled guilty to a charge made by Mayor Mansfield, and Judge Smith has raked in over \$100 in fines.

MOLINEAUX MAKES RINGING PROTEST

Was Sentenced to Be Electrocuted In New York This Morning.

HE DEFENDS HIS WIFE

The Yellow Journals Wanted His Blood and Hunted Him Down.

When Motion For a New Trial Was Overruled He Declared His Innocence and Said His Conviction Was Procured By Perjured Testimony.—The Man That Dragged His Wife's Name Into Court He Called a Coward

New York, Feb. 16.—[Special Telegram]—Roland Molineaux convicted of the murder of Mrs. Kate Adams, was sentenced this morning to be electrocuted during the week beginning March 26, 1900.

After Molineaux's attorney had made a motion for a new trial, which was overruled, the convicted man made a highly dramatic address to the court. He declared that his conviction was secured by perjured testimony.

"The yellow journals of this city hunted me down," he cried. "They wanted my blood and set a price upon my head, innocent or guilty," he cried in impassioned tones.

"I never possessed the instruments used in the commission of this crime. I never for an instant harbored a murderous design against any man."

He compared his case with that of Dreyfus and in closing said:

"As for the conduct and statements of the prosecution in so far as they related to the innocent and lovely woman who bears my name, I denounce them as cowardly lies. The man who dragged my wife's name into this court I denounce here as a blackguard and a coward and now am ready to hear my sentence. I am not afraid. I have nothing to fear because I know I am innocent." Sentence was then passed.

MARKET CONDITIONS REMAIN THE SAME

Tobacco Business is Quiet—Demand for Old Stock Continues to be a Feature.

The market conditions remain about as heretofore reported says the Wisconsin Tobacco Reporter. There seems to be but little active effort made at present toward buying the new crop. A quiet business is all the time being done though the question of prices is the chief incentive dealers have for adding to their holdings and the sales are therefore considerably lower than the average quotations for the crop. Unless fresh buyers enter the field the balance of the crop seems destined to move slowly. Sales coming to notice since last report are:

Wm. Flaherty 9a at 6 1/2c.
Mrs. H. C. Humphrey 5a at 7 1/2c.
Chas. White 11a at 6 1/2c.
Condon & Sherman 6a at 6 1/2c.
J. C. Richardson 4a at 6 1/2c.
E. T. Watson 4a at 6 1/2c.
Aug. Lemke 5a at 6 1/2c.
Chas. Keiglow, 5a at 5 1/2c.
C. H. Dickinson, 5a at 5 1/2c.
Geo. Lockner, 22a at 5c.
C. G. Goodhue, 22a at 4c.

The demand for old stock continues to be a prominent feature in the trade. Packers are sold down to much smaller stocks than for some years past, with a prospect that every pound of Wisconsin leaf will be needed before the new crop is saleable. The only transaction of moment coming to notice is the sale of 157 cases of '97 by John Holton to Child, C. L. Culton reports the sale of about 400 cases of '98 for the week.

Dealers are still busy receiving former purchases, which are steadily coming into market. The tobacco generally is in very good packing condition, and rejections or complaints are rare.

The shipments out of storage reach 30 carloads, 146 cases, from this station to all points for the week past. The receipts from outside points for handling in this market was 28 carloads of bundle leaf. Since last report 725 cases of cigar leaf were reported from New York.

Flowers Used in Making Perfumery.

Vast quantities of flowers are gathered for perfumery purposes. It is estimated that each year 1,800 tons of orange flowers are used, besides 930 tons of roses, 150 tons each of violets and jasmine, 75 tons of tuberose, 30 tons of cassia and 15 tons of jonquils.

Attendance at Fair's Exposition.

On the basis of results of previous exhibitions at Paris it is assumed that 52,588,230 people will pass through the turnstiles, and it is possible that the total number may reach 50,000,000.

Revival Meetings in the Murray District—Annual Meeting of Creamery Co.—Baptist Church Revival Meetings—Clinton Social and Personal News and Notes.

Clinton, Feb. 16.—The event of the week was the grand dancing party given on Monday evening by the local order of the Eastern Star. The affair took place at Woodard's hall, and Hardeen's harp orchestra furnished the music. About seventy-five couples were present. Nearly all of the best families in town were represented. Dancing lasted until 12:30 o'clock. There was no number on the program which called for the lights to be turned out, as characterized a recent Janesville party, but Clinton people danced cake walk instead. In a room adjoining the hall, card tables were furnished for those who preferred that kind of amusement. The party was a great success, and it is hoped by many that more of the same kind will follow.

Revival meetings are being held in the Murray district, conducted by Rev. E. S. McChesney. Much interest is felt in the community, and a number of conversions are reported.

The Woodmen's big meeting and banquet, which has been looked forward to by the members for some time, will occur next Tuesday evening, Feb. 20. It is expected that eight new members will be initiated.

REV. FATHER WARD TALKED ON MARRIAGE

Large and Appreciative Audience Assembled Last Evening at the Myers Grand Opera House.

At the Myers Grand Opera house last evening a large and appreciative audience assembled to listen to a lecture delivered by Rev. Father Matthias J. Ward, pastor of St. Thomas' Catholic church, Beloit. Father Ward took for his subject, "How to Get Married."

Rev. William A. Goebel of St. Mary's church, introduced the speaker.

In handling his subject the speaker dwelt at length on the divorce law branding it as one of the greatest curses of the day being in a sense classed the same as polygamy. Father Ward stated that marriage was the foundation stone for all human society. It was God's decree that the human race be perpetuated.

The position of the Catholic church in relation to marriage was referred to and to strengthen his statements the speaker read quotations from St. Paul's epistles. Father Ward spoke about the recent cry of the whole country in relation to the seating of Roberts, of Utah in congress on the charge of polygamy. The speaker thought that divorce and polygamy should be classed as practically the same.

Father Ward then referred to the work of the legislature of Wisconsin last winter in passing the True marriage bill. This law has made but little difference to the Catholics. He was sorry that the law was not twenty-five days instead of five days as this would be the means of putting a stop to many of the divorces that exist these days. The lecture throughout was most interesting.

Before the lecture Prof. Gaskins of the High school rendered a vocal solo. He responded to an encore, giving a humorous Irish song. Mrs. C. L. Clark presided at the piano.

Rev. Father Ward donated his services and Manager P. L. Myers very kindly donated the use of the opera house.

CHICKEN PIE FOR HUNGRY PEOPLE

Baptist Church at Afton is Made \$20 Richer—Some Social and Personal Notes.

Afton, Feb. 16.—Chicken pie was served to a host of hungry people at the Baptist church last Friday evening and the Y. P. S. C. E. is twenty dollars richer as the result, while the men have demonstrated their ability to serve a supper. The supper was followed by a program which included recitations by Misses Ina Kemmerer, Alice Eldredge and Ruth Humphrey, Prof. A. G. Henry and Masters Harry Bobb, Jay Antisdel, Ernie Antisdel and Jimmie Searles. Miss Kemmerer and Prof. Henry were obliged to respond to well merited encores. The recitations were interspersed with songs by the congregation and a vocal duet by Lois A. and Olysses G. Waite.

The school entertainment will be held at Brinkman's hall on Saturday evening of this week. For weeks the scholars in both departments have been preparing for the event under the careful and painstaking supervision of their teachers and a very creditable and interesting program is anticipated.

Rev. Howland Hanson, of Beloit conducted a Lincoln memorial service at the Baptist church here last Monday evening, a feature of which was the stereopticon views illustrating the life of the great war president. Sanger, the well known Beloit merchant, who gave one of his characteristic "talks."

Mr. Sanger was accompanied by Miss Cora Pollock, who assisted in the musical service. There will be the usual services next Sunday. Mr. Sanger will speak again at 3 o'clock his topic being "What are You Alive For?" It is expected that Miss Pollock will again sing, assisted by other Beloit talent.

GENIUS IS ECCENTRIC.

As Is Proved by Some Recent Doings of Actors.

The ancient wearers of the sock and buskin had many draw backs to contend against. The strollers who so eminently performed their parts on the insecure boards of a cart must have felt at times that they were leaving altogether too much to the imagination of the open-mouthed auditors. Yet we have no reason to believe that they ever cut short a tragedy because of these unpleasant restrictions, nor that they rudely drove away in the midst of a mutilated comedy. It remains for the later-day actor, with his wealth of realistic surroundings to flare up over trifles and bare his quivering nerves before a presumably sympathetic audience. Miss Julia Arthur stops her performance and denounces the murmur of a chattering box party. Actor Richard Mansfield throws up his hands in disgust and rings down the curtain because of a sputtering steam pipe. Perhaps he felt at the moment very much as the oldtime actor did when greatly annoyed by the crying of an infant child. Breaking off abruptly, he advanced to the footlights and gravely observed: "Unless the play stops, the child can not go on." Mr. Mansfield, however, said nothing—at least, nothing audible to the audience. He tacitly confessed his unwillingness to match the ordinary vocal pipes against the vapory sort, and rang down the curtain. Genius has always borne a reputation for eccentricity, but only in later years has it burst through the environments of time, and place, and professional obligation, and dominated its chosen field. The musical genius warbles or thumps at will; the actor treads the boards at will. Perhaps this independence of action will mark the other professions in time. Genius has become, in a measure, a petty autocrat, and as long as there are servile necks for it to prouette upon, it may be expected to show still further proofs of unpleasant eccentricity.

Paris, Feb. 16.—M. Decrais, the minister of the colonies, has received a telegram from the governor of the French Congo announcing the defeat in battle of Rahab, the principal chief of the central Soudan, by a French expedition. Rahab has long been the strongest opponent of the extension of French influence in the Soudan. His career of victory gained for him the name of the "African Napoleon." The French have been fighting his power for years. His losses are estimated at between 2,000 and 3,000 killed.

The Coptic in Quarantine.

San Francisco, Cal., Feb. 16.—The Occidental and Oriental company's fast steamer Coptic arrived Thursday night two days ahead of time, but she was placed in quarantine and no mail from her was landed. Between Feb. 2 and Feb. 8 there were four new cases of the plague and three deaths.

Give Train to Pettigrew.

Boston, Mass., Feb. 13.—A communication has been sent to Senator R. F. Pettigrew of South Dakota, signed by twenty-two prominent citizens of Boston, commending him for his contention for free speech and his attack on the administration. The communication praises him especially for insisting on the publication of the translated paper of Filipino leaders, and says Aguinaldo is justly their leader as Washington was ours. The more prominent signers are: Camille Bradford, Robert M. Morse, Thomas Wentworth Higginson, Winslow Warren, Moorfield Storey, William Lloyd Garrison, and George U. Crocker.

Big Levy on Bank Stock.

Boston, Mass., Feb. 16.—The comptroller of the currency has levied an assessment of 100 per cent upon the capital stock of the Globe National bank, payable March 15, 1900. The capital of the bank was \$1,000,000. The probabilities are that substantially the full amount of the assessment will be collected, as holdings of Globe bank stock were largely subscribed for by savings banks and individuals who are able to meet the assessment.

Corbett's Curious Move.

New York, Feb. 16.—In order to convince the sporting public that his coming fight with Champion Jeffries will not be a "fake" Jim Corbett has posted \$2,500 with a stakeholder with the provision that if in the latter's judgment the battle is not on the level the money can be turned over to any charity to be designated later. Corbett makes a vehement statement that he will whip Jeffries beyond a doubt.

An Editor's Life Saved By Chamberlain's Cough Remedy.

During the early part of October 1896, I contracted a bad cold which settled on my lungs and was neglected until I feared that consumption had appeared in an incipient state. I was constantly coughing and trying to expel something which I could not. I became alarmed and after giving the local doctor a trial bought a bottle of Chamberlain's Cough Remedy and the result was immediate improvement, and after I had used three bottles my lungs were restored to their healthy state. No Brass Trust Formed.

Pittsburg, Pa., Feb. 16.—The American Brass Manufacturers' association adjourned its annual meeting after revising the discount lists. The members say that no trust was formed and that none will be formed.

There is no better medicine for the babies than Chamberlain's Cough Remedy. Its pleasant taste and prompt and effectual cures make it a favorite with mothers and small children. It quickly cures their coughs and colds, preventing pneumonia or other serious consequences. It also cures croup and has been used in tens of thousands of cases without a single failure so far as we have been able to learn. It not only cures croup, but when given as soon as the croupy cough appears, will prevent the attack. In cases of whooping cough it liquefies the tough mucus, making it easier to expectorate, and lessens the severity and frequency of the paroxysms of coughing, thus depriving that disease of all dangerous consequences. For sale by Smith's Pharmacy, next to postoffice, kodak agents.

Four Persons Killed by a Train.

Montreal, Que., Feb. 16.—The Canadian Pacific train from Quebec to Montreal ran into two sleighs at Mount Carmel crossing, near Three Rivers, and killed Napoleon Bellemare and Mrs. Bellemare, Zolique Le Francois and Mrs. Le Francois of Mount Carmel.

Tap, tap all day at the machine until the head throbs with every tap. And when the machine stops for the day the throbbing still goes on. More than any other class of women the large army of women clerks needs to closely watch the health of the organs peculiarly womanly. For the general health will be disturbed just in proportion as the local health of the delicate, womanly organs is disordered. With irregularities there will come pains in the head, the back or side, nausea and general misery. The happiness of the future life of the wife and mother may be entirely ruined by neglect of the health at this critical period.

Women confined in offices, shut out from necessary exercise will find a faithful friend in Dr. Pierce's Favorite Prescription. It so regulates the womanly functions and so strengthens the delicate organs that pain from these causes will be absolutely done away with and future health be perfectly assured.

There is no opium, cocaine or other narcotic in "Favorite Prescription." Neither does it contain alcohol, whisky or other intoxicant.

"I was so weak I did not have breath to talk across my room," writes Miss Isbell Miller of New Providence, Calloway Co., Ky. "My periods occurred too often and the discharge would be prolonged and the loss of blood very excessive. I also had spells which the doctor said were fainting fits. I could not tell when they were coming on but they left me very weak. My stomach would cramp until I could not straighten. This would last for several hours. I did not gain strength from one monthly period to another; was very weak and nervous all the time. I was advised by a kind friend to try Dr. Pierce's Favorite Prescription, which I did and before I had taken two bottles of it I could work all day. I took in all six bottles of the Favorite Prescription and about five bottles of Dr. Pierce's Peppermint. I used no other medicine. I have never had a return of this trouble since, and never can praise Dr. Pierce's medicines enough, for I know they saved my life."

HENRY C. PAYNE.

There appears to be no doubt but what Henry C. Payne will succeed himself as the Wisconsin member of the Republican National committee. This is as it should be. Mr. Payne's work has won recognition, and as a shrewd and successful campaign manager he is famed all over the country. The republican party at large is gaining by reason of Mr. Payne's talents, while Wisconsin republicans are gaining through the additional prestige that his brilliant work has brought to the Badger state.

A political party certainly owes something to the man who labors to advance its interests. A mistake is made when energetic and successful workers are attacked—often times, more because they have been successful, than for any other reason. "Put only the best men on guard, and when you find a good one, keep him" is an excellent rule in politics. Mr. Payne has his friends and his enemies, but both are free to admit that his services as a national committee man have been of a distinguished order. No man in a public position can please everyone, and the official who plays policy is always a failure. Henry C. Payne has none of the milk-and-water in his make-up, and his work in the last presidential campaign was highly praised, not only in Wisconsin, but throughout the United States. It is to the credit of the Badger State republicans, therefore, that Mr. Payne is to be re-elected, as it shows that the party in Wisconsin, like the party in other states, is not ungrateful, but on the contrary, is always ready to recognize services freely rendered and successfully executed.

CHANCE FOR JANESVILLE

Every inducement should be held out to tobacco dealers who desire to locate in Janesville. The tobacco industry has grown to wonderful proportions in the last few years, but the limit has not yet been reached. Janesville has every natural advantage as a tobacco center. Railway facilities are excellent, and fire protection of the very best, while insurance and taxation rates are low. The tobacco men pay out vast sums of money in a year, and much of it would be spent in Janesville.

There is no reason why Janesville should not be the tobacco center of the state, and it will be an organized effort is made to bring about that situation.

David K. Jeffris is doing his share to advance Janesville's interests. The big mill on River street and the raceway is a model and represents a heavy expenditure. The River street block and the new tobacco warehouse are also evidences of Mr. Jeffris' faith in Janesville—a faith that is well grounded and worthy of the widest application.

Dairy and Food Commissioner H. C. Adams and Prof. W. A. Henry of the State University may well feel proud of the compliment paid them by President H. C. Taylor, of the Wisconsin Dairy-men's association. President Taylor is one of the dairying authorities of the United States, and knows what he is talking about.

Michigan upholds Milwaukee's claim in the matter of the democratic national convention, and in return, we expect, Milwaukee papers will give unusual prominence to the matter of the annual failure of the Michigan peach crop. One good turn deserves another.

The Chicago Journal also refuses to spell it Puerto Rico on the ground that it wouldn't look nice to spell it The Chicago Journal.

The Chicago "Non Partisan Anti-Trust Convention" appears to have developed into a Bryan and Free Silver Yelling

Society, intent, not on crushing the trusts, but in divorcing them from what money they may possess. 'Twas ever thus.

A Chicago beggar was arrested the other day, and the police found \$3,000 in bills hidden in the lining of his coat. No wonder the busy Chicago man is habitually deaf to the appeal of mendicants. The innocent always suffer for the sins of the guilty.

URGES PROTECTION FOR OUR FORESTS

FORESTRY MEANS THE PRODUCTION OF WOOD CROPS.

Chair of Forestry Should Be Established At State University—Interesting Letter From B. S. Hoxie, President of the Wisconsin Forestry Association.

Editor Gazette:—Under the heading, "University Should be Strengthened," as it appeared in the Gazette of the 14th inst., I wish to endorse what Mr. Fethers has to say as to the particular need of our State University, and at the same time correct the impression as to the expense of the proposed "Chair of Forestry." Of course a chair of forestry implies a professor of forestry, and for the first year perhaps the only additional expense to the university would be his salary. So far as I know there are today in the United States only two colleges of Forestry, or practically only one supported by the state and this is by Cornell University with the work of demonstration in the Adirondack region. The other is at Berea College, Berea, Kentucky, which is more local and the work conducted and carried on without state aid.

The state of New York within the past two years has purchased land in the Adirondacks costing nearly one and one-half million dollars, and last year made an appropriation of \$10,000 to establish the College of Forestry at Cornell.

Forestry means the production of wood crops just as agriculture means the production of food crops, but in this country until within a few years ago our source of timber supply was thought to be unlimited, nor had we given much thought as to the influence or the relation of forestry to agriculture or even the necessity of forest preserves at the head waters of our rivers.

The reckless destruction of the forests in all of our lumbering states has gone on so rapidly in the past forty years; more particularly in the west and especially in our own state, that now these states practically have disposed of all their timbered lands. This was true of Pennsylvania, and that state last year made purchase of 40,000 acres at the head waters of their three principal rivers and at a cost of nearly \$1,000,000.

Wisconsin has now over 300,000 acres of wild land, and is soon to be in the possession of 312,000 acres more, by our settlement with the national government by an act of the last legislature. The most of these lands are unfit for agricultural purposes, but owned and administered to by the state, selling only the ripe timber, which will bring far more than we ask now for the land; and allowing the woods to re-forest themselves. These and thousands of other acres, are in some instances only waiting to be turned over to the state, as soon as it will be cared for by proper commissioners or a forest warden.

It will thus be seen that we will not have "to purchase a large tract of land" for experimental purposes, as Mr. Fethers has intimated. The Wisconsin Forestry association, by its proper officers, has drawn up an outline or syllabus of the work which may be carried on in our university; and that proposition was placed before the board of regents. We asked of our legislators last winter, in a carefully prepared bill, that our state lands—except state and university—be withdrawn from the market.

The wisdom of our bill was apparent to every one who gave it any thought, but so many claims on the legislature for appropriations had to be passed that the forestry bill was laid over—not dead however, because we must take warning from other states.

We spend thousands of dollars to propagate and distribute fish in our state every year, and thousands more to protect our fish and game and why not, by wise laws protect our forests, the natural home of the game, beasts and birds.

Forgot His Native Tongue.
Andrew Lawson, a Norwegian cooper was struck on the head by a falling block while at work on one of the piers of the Atlantic Transport company, New York city, on Sept. 5, 1893. He lay like one dead in St. Vincent's hospital for two months. His life was despaired of, but finally he rallied and regained a part of his lost strength. Lawson is in a normal condition in every sense, with the exception that he has forgotten all about his former life and companions, and has no remembrance of his native tongue. Try as he will he cannot converse in the language that he learned in Norway. His wife is instructing him as she does their four-year-old boy. Lawson speaks the English language only imperfectly. The case has attracted the attention of scientists and specialists.

A VIRGINIA BEAUTY.

Another Handsome
Langhorne Girl Enters
New York Society

An unmarried sister of Mrs. Charles Dana Gibson is one of the reigning beauties in fashionable New York society this winter. She is Miss Phyllis Langhorne of Albemarle county, Va. Originally there were four of these Langhorne girls, and they were famous for their beauty all over the Old Dominion State. Now there is only Phyllis left unmarried, and she is perhaps the most beautiful of them all.

Elizabeth is now Mrs. Moncure Perkins, one of the belles of Richmond. Nanette lives in Boston, where she reigns in society as Mrs. Robert Shaw.

MISS PHYLLIS LANGHORNE.

Irene is the wife of the great artist who created the Gibson girl, and it was her beauty that inspired him to draw such wonderfully attractive women. Mrs. Gibson is not socially ambitious, but she has a charming home on Long Island, where leaders of society are often seen.

Miss Phyllis is only 19, but she has already had one season in New York and numbers her admirers by the scores. She has wonderful hair, a Junoesque figure, blue eyes and long dark lashes, put on, as they say in Ireland, "with a smutty finger." She rides to hounds with all the dash and skill for which Virginia girls are famous, and she is fond of golf and coaching.

The Chicago & Northwestern Railway Company owns 550,000 acres of hard wood timber land in Northern Wisconsin, which lands are now being offered to actual settlers at low prices. The lands are well located, afford railway, postal, church and school advantages. These lands should not be confounded with the pine stumpage lands now offered in this market. Land that grows pine is invariably sandy.

The C. & N. W. Tracts grow hard wood and cannot be excelled by "openings" in the country.

The logs, posts and poles find ready sale at nearby saw mills, and when the land is once cleared excellent agricultural soil is the result.

Excursions will be run to these lands on Tuesday of each week, round trip tickets being sold at \$6.71

They are for sale at my office. I should be glad to furnish printed matter and other information to all interested.

SHERIFF APPELBY FOOLED OFFICERS

FRANKLIN, FLYNN, HARRIS AND
FARRELL PRISONERS.

By a Clever Ruse the Rock County
Officer Was Ahead of a United
States Marshal and Postoffice In-
spector—Prisoners Will Be Held For
the Milton Bank Robbery.

Clever work on the part of Sheriff W. H. Appleby at Prairie du Chien yesterday resulted in throwing several officers off their guard terminating in the arrest of James Franklin alias "Toronto Jim," and Frank Flynn, alias "Old Dad Flynn," captured with two others at Steuben, Feb. 8. Sheriff Appleby charges the prisoners with burglarizing the Milton bank on Nov. 3, 1899. Deputy Sheriff Burmeister of Dane county arrested W. Howe alias "Lefty" Fitzgerald and H. Tiffin on the charge of robbing the Doerfield bank.

United States Marshal Nelson and Postoffice Inspector Guy T. Gould had warrants for postoffice robberies but the sheriffs captured the prisoners first by a ruse the instant they were released here. Franklin and Flynn were sentenced to Waupun from Rock county in 1895 for an \$1,800 silk robbery near Janesville.

Prisoners Arrive Here
With four alleged bank robbers in his charge Sheriff Appleby arrived in Janesville this morning at 4:30 o'clock. An all night ride on freight and passenger trains brought the plucky Wisconsin sheriff and his prisoners safely here. The arrested men are Frank Flynn, James Franklin, James Harris and William Farrell.

The men are charged with robbing the bank of Milton. When the prisoners were brought into court yesterday morning at Prairie du Chien one of the most dramatic and exciting scenes ever enacted in a Wisconsin court followed. It was understood that the men would be discharged for the lack of evidence.

For this reason eight different officers were on hand to cause their arrest on different charges. No sooner had the presiding judge uttered the word "discharged" than the awaiting officers all made a grand rush for the prisoners. The main fight for possession was between Sheriff Appleby and United States Marshal Nelson.

Both started in to read their warrants. But the plucky sheriff from Rock county made short work of his reading. When the representative of the United States was uttering his last words Sheriff Appleby was busy placing handcuffs on four prisoners.

Then Appleby yelled to the five hundred excited spectators present to clear the street. With one grand rush out went the sheriff and his men before half of the crowd knew what had happened. Five minutes time found the prisoners in jail.

Then the United States marshal put in an appearance and tried to make Sheriff Appleby think that a United States warrant was entitled to first place over a state warrant.

But the bluff did not work. Then the enraged officer threatened to get out a writ. There being no judge about at the time this move was also defeated by the Rock county sheriff who had made it a point to see that no such paper could be secured until he and his prisoners had left the city.

At seven o'clock last evening the four prisoners were hurried out of town on a freight. The men were securely handcuffed two by two and were informed that if any one of them made a move to escape it would mean the emptying of two of the best revolvers ever manufactured by the Smith & Wesson company.

After an all night ride in a freight caboose the little party of men arrived at Madison shortly after midnight. Here they were obliged to wait for the early morning train from Duluth to Chicago on the Northwestern road which brought them to Janesville at 4:30 o'clock this morning. Short work was then made in placing the prisoners behind the bars of the Rock county jail.

The four prisoners will be arraigned before Judge Fifield of the municipal court tomorrow morning on the charge of robbing the bank of Milton.

ARREST DOCTORS WHO PRACTICE HERE

SEVERAL MUST REGISTER BEFORE THE FIRST OF APRIL.

Dr. Dale, President of the Wisconsin Board of Medical Examiners, Writes Dr. Sutherland of This City—Older Physicians Do Not Think the Plan a Good One.

Dr. Q. O. Sutherland is in receipt of a lengthy letter from President H. B. Dale of the State Medical Board, anxiously inquiring on how the physicians of Janesville stood in reference to the registration license law.

Unless there is much rallying within the next six weeks certain Janesville physicians will be prosecuted for failing to comply with the license law. Under the law they have until April 1 to do so and Dr. H. B. Dale, president of the State Medical Board asserts that he will have no recourse but to arrest and prosecute those who are delinquent.

Only one more meeting will be held and that will probably be called at Milwaukee for the purpose of giving the non-registered ones a chance. At a meeting this week in La Crosse 115 physicians registered.

It is probable that a majority of the total number of doctors in the state will have complied with the law before the end of March, many of them rushing in their applications at the last moment. The state law of 1897 requires that every physician coming into the state to practice since 1897 shall obtain a proper license to practice from the State Board of Examiners.

The registration law of 1897 will expire April 1. This law requires that every physician practicing in the state prior to 1897 shall register with the board. Many of these who are only obliged to register are taking out license as they are of value to the practitioners as credentials.

A Gazette man today interviewed several of the local physicians and it is quite evident that there are certain ones who will not comply with the law. Physicians who have been practicing in Wisconsin for many years claim that it is all nonsense for them to be compelled to register which means much red tape work and a cost of \$2.

ARQUETTE WANTS \$10,000 DAMAGES

Says That His Arrest and Confinement in Jail Was to Secure the \$200 Reward.

City Attorney Fred C. Burpee has been in Chicago during the past two days. When he entered his office this morning he was surprised to find papers that had been served on him by John Arquette of this city, who was acquitted by a jury in the circuit court of Rock county on the charge of arson.

In his papers Arquette stated that he wants \$10,000 damages. Who he wants this amount of money, from he does not state. In his complaint he says that he was arrested in Milwaukee and kept in jail seven months just so certain officers could secure \$200 reward. Arquette further complains of his treatment at the jail and says that bread and water was his bill of fare for days and days.

He also says he went six days without eating. He alleges that he nearly starved to death for the want of food while in jail. Arquette now says that he has a little children to support. He further alleges that at the time he was arrested in Milwaukee he was about to engage in business.

OBJECT TO CIGAR FACTORY

Federated Trades Council Makes a Statement From Its Point of View

Editor Gazette—The locating of a "storage" cigar factory in this city is not meeting with the encouragement that was expected, for whatever reasons we are unable to say, but one thing we do know, and that is, that all of the legitimate, first class cigar makers and manufacturers of this city, almost to a man are property owners and tax payers, and that they are strongly opposed to it; not but what they are always ready to lend their hearty support to the establishing of a cigar factory in their midst when the competition would be legitimate, but they are and as every good citizen should be unalterably opposed to the sweat shop system. Especially is this so when nine-tenths of the employees are girls, who receive but a mere pittance, and as said by a local cigar maker who has been through several of those germ infested stogie sweat shops, in reply to a question asked the superintendent as to how the girls could live on such wages. He stated it was by making sacrifices that would not be necessary under other conditions.

FARMER ROBBED BY HIGHWAYMAN

Fred Butikoper of Afton, Assaulted by Three Men on His Way Home Last Night.

Yesterday Fred Butikoper, a farmer living near Afton, brought a load of tobacco to Janesville. Very cautiously and very luckily he paid out every cent of the money received in squaring up accounts. When he started home about 5 o'clock, he was penniless, but happy. When he came opposite the Kellogg farm, he met three men, and they stopped him for a ride. He did not like their looks and actions, and whipped up his horses to get away from them.

But they jumped on the wagon and grabbed him. He made a desperate resistance and in the melee threw two of the gang out of the wagon. He grabbed his lines and urged on the horses holding on to the third man. The horses responded and left the two men on the ground. The third robber seeing that the farmer had the best of it wrenched himself away and jumped from the wagon.

Butikoper was glad to get rid of them. He said they demanded his money and he told them he had none and then the fight began. He was considerably bruised, but not badly hurt. It is not known who the robbers were.

SENSATION IN CLARK CASE.

Tried to Bribe Montana Supreme Court Justice.

HE WAS OFFERED \$100,000.

Judge Hunt of the Montana Supreme Court Gives Sensational Testimony Before the Senate Committee—Echo of Wellcome Disbarment Case.

Washington, Feb. 16.—The senate committee on elections resumed its inquiry into the election of Senator Clark of Montana, after a respite of thirty-six hours. When the committee was called to order it developed that at least two of the justices of the Montana Supreme court were present, having been summoned by the committee to throw light upon the Wellcome disbarment bill.

Justice Hunt's testimony created a profound impression. He detailed four different conversations he had with his family physician, Dr. William Tracey of Helena, in two of which he believed the doctor had attempted to lay before him a proposition to bribe him in the Wellcome disbarment which was at that time before the court of which the witness was a member. The first of those conversations had occurred on the 5th of last August in Dr. Tracey's office. The court had then held that it had jurisdiction in the disbarment proceedings and he went to Dr. Tracey's office at the invitation of the latter.

"When I went to his office," said the witness, "Dr. Tracey invited me to a back room. The doctor said: 'I have a funny kind of a proposition which has come up for you.' The doctor then went on to tell, according to Judge Hunt's statement, that he (the doctor) was taking an interest in the Wellcome case, which he said he understood was not like ordinary cases in court. He had been told, he said, that it was largely a matter in the discretion of the members of the court, continuing that he understood the disbarment proceedings to be a political fight largely and adding that while he did not know Mr. Wellcome, he understood that he was a decent fellow.

Judge Hunt said that he had replied to all this to the effect that while there was a certain amount of legal discretion permitted, the case would have to take its course just as any other case. He himself felt that it was a painful duty because he knew Mr. Wellcome's reputation, and altogether, he would gladly avoid it if he could. Dr. Tracey then said to him, according to the witness: "I don't suppose, then, there is any use to lay my proposition before you?"

Without, however, waiting for any formal reply the witness said the doctor had proceeded as follows: "There is a party here who has got \$100,000 and who wants to put it up if that case can be thrown out of court." Justice Hunt said that he was not certain whether Dr. Tracey had used the singular or plural pronoun in speaking of the party—not sure whether he said he or they.

Washington, Feb. 16.—Although the regular sessions of the National American Woman Suffrage convention have closed, two receptions were arranged by the delegates Thursday, as a sort of farewell to the convention city. Anthony, the retiring president of the organization. This evening a public reception was held at the Corcoran Art Gallery.

In Contempt of Legislature. Des Moines, Iowa, Feb. 16.—The Iowa division of the United Mine Workers of America is in trouble with the Iowa legislature. The members declare that the association is guilty of contempt and say that the officers will be arrested and brought before the legislature.

Havana, Feb. 16.—Thursday was the second anniversary of the destruction of the Maine. An impressive memorial service took place in the Catholic church of Our Lady of Mercy at 9 o'clock. Gen. Wood was present, and the various officers were represented by their secretaries. Mayor Lacoste and a number of Americans were also present. Many steam launches filled with Americans went to the wreck of the warship, where prayers were offered on the platform where the searchlight formerly was. THE GOLD BILL IS PASSED.

Senate Adopts the Financial Measure by a Large Majority.

Continued From page 1.

Aldrich Makes an Estimate. Senator Aldrich estimates an ultimate saving to the government of \$22,000,000. The conservative estimates indicate half this amount. The house will try to insist on the senate's acceptance of the division of issue of the United States.

The distinct separation of the uses of money in the redemption fund from that obtained for ordinary expenses of the government will be an important consideration. The senate bill provides that the proceeds of bonds which are sold to maintain the gold reserve shall be paid into the fiscal division of the treasury. This division is to offer gold for greenbacks to the issue division, and the reserve fund strengthened by the greenbacks which have been redeemed with gold-obtained for bonds. This provision will, it is said, prevent the accumulation of money in the issue division and the contraction in circulation which would result from an accumulation in the issue division of the proceeds of bond sales.

Debate Was Fierce.

The debate on the bill was fierce and the passage of the measure was most stubbornly contested by the minority. Amendment after amendment was offered, and voted down as fast as offered, though roll calls were invariably demanded and secured.

It was over the last section of the bill, a provision looking to international bimetalism, and declaring that the provisions of the act are not intended to place any obstacles in the way of its accomplishment, that the struggle raged all day. Mr. Hoar of Massachusetts opened the debate with a plea for the amendment, that there was no disguise or hypocrisy in it. Mr. Morgan of Alabama characterized it as a miserable makeshift. The leading democratic champion of the day, however, was Mr. Cockrell of Missouri, who was on his feet most of the time, challenging republican senators in his most aggressive and defiant manner, denouncing the gold monometallists as "howling the knee to the golden calf," and demanding an American system of finance. So long drawn out and bitter was the fight that it was not until 6 o'clock that the final vote was taken.

Takes Up Macrum Matter.

Representative Wheeler of Kentucky introduced in the house a resolution calling upon the state department to inform the house of representatives if Charles E. Macrum, as consul of the American government, informed the State Department that his official mail had been opened by the British censor at Durban, and if so, what steps if any have been taken to obtain an explanation and apology from the British government.

ernment. He is further directed to inform the house of representatives what truth there is in the charge that a secret alliance exists between the republic of the United States and the empire of Great Britain." The speaker referred the resolution to the foreign affairs committee.

The state department is going over the official dispatches received from Consul Macrum. As a result of their labors, they say there is no record of any complaint or any formal notice by Macrum of mail having been opened by the British authorities.

Bars Out Polygamists.

Washington, Feb. 16.—The house committee on election of the president, vice-president and members of congress has agreed to favorably report Representative Capron's resolution, providing that no polygamist shall be elected to the house or senate.

Ships of War at Culebra.

Washington, Feb. 16.—The flagship New York the battleship Texas and the gunboat Vixen are at Culebra island, near Puerto Rico. These arrivals indicate the importance Culebra has assumed in the West Indies.

A Detailed Map of Rock County . . .

Work is now in progress on a new wall map for Rock County. In size it will be 42x47 inches, mounted on cloth, and each township (of which there are twenty) will be neatly colored. The county will be represented on the scale of 1 1/2 inches to the mile and will show the location of streams, lakes, cities, villages, school houses, churches, town houses and residences, public roads and railroads. It will also locate the farms, giving the number of acres and the name of the present owners wherever it is possible to do so. As fast as the drawings of the townships are completed they are verified so that the map will be as nearly correct as possible. The work will be of great value to business and professional men and farmers, and should find place in every school house in the county. The last wall map of the county was made a great many years ago, so that this new one will fill a long felt want.

The Price is \$6.00.

Only enough of the Maps will be printed to fill orders. This fact should be borne in mind by those interested. Agents will begin the work of canvassing at once; orders may be given them and may also be sent to us in care of The Gazette office. If you will send in your name a representative will call and give more information if necessary.

The undersigned hereby orders W. W. HIXSON & CO. to publish and deliver to me or us . . . Map of Rock County, Wisconsin, for which I agree to pay W. W. HIXSON & CO., or agent, the sum of Six Dollars on delivery of said Map.

The Maps to be mounted on Cloth, neatly colored by townships. The county will be represented on the scale of 1 1/2 inches to the mile and show the location of Streams, Villages, School-houses, Churches, Townhouses and Residences, Public Roads and Railroads also, locating the Farms, giving the number of Acres and the name of the present owners, wherever it is possible to do so.
